How to add IITB mail in your Gmail

1. Open your Gmail and click on top right profile icon

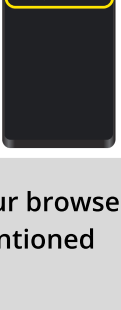

2. Click on Add another Account

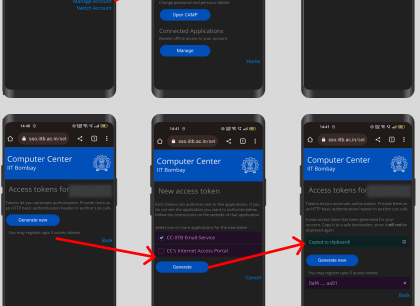

3. Click on Other

4. Enter your LDAP ID, and select Personal (IMAP)

Go to sso.iitb.ac.in on your browser, then follow the steps mentioned below.

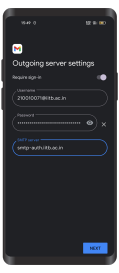

5. Paste the copied access token here

6. Incoming server settings, select:

	Incoming Settings
Field	**Value**
Server	imap.iitb.ac.in
Port	993
Security Type	SSL/TLS

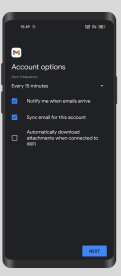

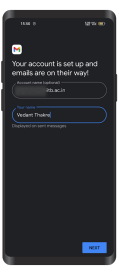

7. Outgoing server settings

Outgoing Settings	
Value	
smtp-auth.iitb.ac.in	
587	
STARTTLS	

8. Select the options as per your preferences

9. Click on “Next”

Restart Gmail after this and you’re good to go!
